Queens Oak Advisors Recognized as Top Guns Manager by Informa Investment Solutions

Charlotte, NC – August 23, 2017 – Queens Oak Advisors has been awarded a Top Guns designation by Informa Investment Solutions’ PSN manager database, North America’s longest running database of investment managers, for outstanding performance in the Large Value and US Value categories.

“Given the trend toward passive investing, underperformance of large-cap U.S. equity managers, and narrow leadership within the technology sector, we are extremely pleased with the performance of our Concentrated Large Cap Value Strategy. Our focus on quality and value investing has been successful over the past several years,” explains **Eric Teal, Chief Investment Officer at Queens Oak**. “Moreover, we believe our portfolio is well positioned for forthcoming economic and policy changes.”

Through a combination of Informa Investment Solutions’ proprietary performance screens, PSN Top Guns ranks products in six proprietary categories in over 50 universes. This is a well-respected quarterly ranking and is widely used by institutional asset managers and investors. Informa Investment Solutions is part of Informa Financial Intelligence, a leading provider of critical decision-making solutions and custom services to financial institutions.

Top Guns firms are awarded a rating ranging from one to six stars, with the number of stars representing continued performance over time. Queens Oak Advisors was named a Top Gun with a star rating of 6, which is the highest star performance ranking.

To achieve 6-Star status, products must have an R-Squared of 0.80 or greater relative to the style benchmark for the recent five-year period. Moreover, products must have returns greater than the style benchmark for the three latest three-year rolling periods. After that they select only the products which standard deviation for the five-year period is equal or less than the median standard deviation for the peer group. The top ten information ratios for the latest five-year period then become the TOP GUNS.

The Queens Oak Concentrated Large Cap Value strategy seeks to identify attractive relative and absolute value opportunities that possess catalysts(s) for growth, with an emphasis on quality dividend-paying companies. The strategy employs a bottom-up approach, including fundamental and quantitative analysis, to identify and invest in a concentrated number of companies for the intermediate to long term.

“PSN Top Guns, which ranks products in six categories in over 50 universes, is a go-to resource for institutional asset managers and investors in their decision-making process,” said **Ryan Nauman, VP, product and market strategist at Informa Financial Intelligence**. “Congratulations to Queens Oak on being named a PSN Top Gun. This highly respected ranking spotlights the performance of leading investment managers each quarter.”
